Performance – Right out of the Box!

Our new BB2 baitcast reel by Lew’s® is designed for performance and functionality. From the way it conforms to your hand, to the way it reacts crisply and effortlessly to your command, you’ll know the minute you grab onto the Speed Spool® that you’ve got a quality reel.

Your Speed Spool® reel exploits several new developments which will allow you to set yourself apart from the competition.

One-piece Die Cast Aluminum Frame

Your Speed Spool® reel utilizes a one-piece all aluminum frame. So you’ll never have to worry about frame twisting or warping.

Lightweight Machined Aluminum Spool

The spool on your Lew’s® reel has been engineered to maximize casting distance. Double anodized to withstand oxidation and abrasion, this lightweight machined forged U shaped large capacity aluminum spool will allow you to propel your lure farther than the competition - and you’ll have a greater degree of control with less standing between you and the fish.

Zero Anti-Reverse Bearing

The BB2HZ, BB2SHZ, and BB1SHZL features double shielded ball bearings and Zero Anti-Reverse. The Zero Anti-Reverse system stops the reel handle from spinning backward when in gear.

SmartPlus™ 6-Pin Centrifugal Brake System

Your new BB2 Speed Spool® incorporates the latest reel technologies with the Lew’s® SmartPlus™ 6-Pin Centrifugal Braking System for unmatched casting distance and backlash control. This system features four spring-loaded SmartPlus® pins (white) and two Speed pins (blue), each capable of being turned “on” (out position) or “off” (in position) according to angler needs and fishing conditions. Our spring-loaded SmartPlus® pins automatically back off the applied brake resistance as the cast slows, offering ideal control for most typical fishing situations. For more braking power, such as when casting large lures or into the wind, the Speed pins can be engaged throughout the entire cast. Use your fingernail to adjust each brake, listening for the “click” as it goes into our PosiLock® setting of on or off. The Lew’s® Speed Spool Quick Release side plate mechanism allows easy access to the SmartPlus™ Centrifugal Braking System.

Bowed 95mm Aluminum Cranking Handle

Our 95mm bowed aluminum cranking handle will give you all the cranking power you need. The Lew’s custom Soft Touch contoured paddle is an added bonus known for it’s comfortable fit and ease for all day fishing.
Lew’s® Warrants its products to withstand normal use for the purpose designed and intended when manufactured for a period of one (1) year from the original retail sale date to the original retail consumer. Lew’s® will at its option repair or replace Lew’s® products when required for the warranty period and return the product to the owner at no additional cost to the owner.

Numerous products have been manufactured under variations of the Lew’s® name and under the Lew’s® Logo by multiple businesses over the past 50 years. This warranty is specifically for products manufactured on behalf of Lew’s® at Springfield, Missouri USA since January 1, 2010. Lew’s® products manufactured by or on behalf of other entities prior to January 1, 2010 are not covered by this warranty. In all circumstances, this Warranty is Limited in Value to the original retail value of the product and is limited to actual damage to the Lew’s® product and only the Lew’s® product. Loss of a product, and loss/damage of a product or parts due to the attempted repair or servicing of a Lew’s® product by any person or business other than Lew’s® or Lew’s® Authorized Warranty Service Agent, and damage caused by or resulting from abuse, misuse, lack of recommended maintenance, accident, act(s) of God, and shipping damages occurring in transit to Lew’s® or Lew’s® Authorized Agent are outside the scope of Lew’s® Limited Warranty and will be repaired through Lew’s® after warranty services at the expense of the consumer. Any products replaced by Lew’s® will be new or remanufactured by a Lew’s® Authorized Agent with the same or next model upgrade product. Lew’s® will return warranted products to the consumer by reasonable means as determined by Lew’s®. Express or expedited services are the responsibility of the consumer as is sending the product to Lew’s® or Lew’s® Authorized Agent for Warranty Service. Lew’s® and Lew’s® Service Agents as authorized by Lew’s® are the sole agents authorized to repair or replace Lew’s® products under the terms of this warranty. Only written changes by an officer of Lew’s® can alter the terms or conditions of this warranty.

This warranty gives you specific legal rights including additional rights extended by some states which do not allow certain exclusions and limitations. Any action brought against Lew’s® for the purpose of settling a warranty dispute shall be brought and litigated in the State of Missouri, County of Greene.

Maintenance and Care

To remove the plunger side plate, loosen screw, pull plunger back then rotate plunger side plate up. When applying lubricant to your Speed Spool reel, avoid using multi-purpose oil. Use lightweight oils or greases made for fishing reels. Apply oil to all bearings, the crank shaft, and the worm gear. Apply grease to the bushings, pinion gears, drive gears, and crank gears. After using your reel should be inspected for dirt or sand and cleaned if excessive buildup is present. If your reel has come in contact with saltwater it is important to flush all parts with water, dry and re-lubricate your reel. Through diligent cleaning and maintenance your Lew's reel will provide you with years of reliability and sound performance.
