Lew’s® Carbon Fire reels are designed to be SUPER LOW PROFILE

Driven by innovation - Fueled with Passion
Feel the Difference!

FEATURES:
- One-piece, lightweight graphite frame
- Premium 7-bearing system with stainless steel double shielded ball bearings and Zero-Reverse one-way clutch bearing
- Externally adjustable Magnetic Control System (MCS)
- Machined and anodized aluminum U-spool
- Durable Rulon drag system provides up to 10 lbs. drag power
- Zirconia line guide
- 95mm bowed aluminum handle with Lew’s® custom SoftTouch contoured paddle

Performance – Right out of the Box!
Your Carbon Fire Speed Spool® SLP reel is designed for performance and functionality. From the way it conforms to your hand, to the way it reacts crisply and effortlessly to your command, you’ll know the minute you grab onto the Speed Spool® that you’ve got a quality reel.

Your Carbon Fire Speed Spool® SLP reel exploits several new developments which will allow you to set yourself apart from the competition.

Lightweight Graphite Frame and Sideplates
Your Speed Spool® reel utilizes a lightweight graphite frame and sideplates. Lightweight plus strong, so you’ll never have to worry about frame or gears twisting or torquing.

Lightweight Machined Aluminum U-spool
The spool on your Speed Spool® reel has been engineered to maximize casting distance. Anodized machined aluminum to withstand oxidation and abrasion.

Zero-Reverse Bearing
The handle on your Speed Spool® reel will only rotate forward for rock solid hook setting power. When you release the handle it will hold its position because of anti-reverse bearings, never losing an inch on your catch; an invaluable property to have when you’re pullin’ it in.

Full-Release Magnetic Control System (MCS)
In order to combat backlash your Speed Spool® reel is furnished with an externally adjustable, full-release magnetic braking system. As the spool accelerates it experiences magnetic resistance, which can be controlled with a dial on the palming sideplate. A full-release magnetic brake has the ability to be backed for enough away from the spool to completely negate any effect on the acceleration of the spool.

Cast Control System
A second feature exits to prevent backlash, the Cast Control System. An adjustment knob is found next to the star drag. The function saddles the spool shaft with steady pressure in order to stabilize spool speed.

To calibrate the system reel your lure in until it rests on the tip of the rod, then tighten the knob until taut. Depress the thumb bar, and holding the rod horizontally loosen the knob slowly until the lure begins to descend. The spool should continue to spin after the lure contacts the ground, but should not complete more than one full rotation. If the spool does not continue to spin, the knob is too tight. If the spool completes more than one rotation, the knob is too loose. Repeat until you have achieved the desired results.

Bowed 95MM Aluminum Handle
Our 95mm bowed aluminum handle will give you all the cranking power you need. The Lew’s® custom paddle handle knobs are an added bonus and will provide comfortable fit and ease for all day fishing.

Bowed 95MM Aluminum Handle
Our 95mm bowed aluminum handle will give you all the cranking power you need. The Lew’s® custom paddle handle knobs are an added bonus and will provide comfortable fit and ease for all day fishing.
**Maintenance and Care**

When applying lubricant to your Speed Spool® reel, avoid using multi-purpose oil. Use lightweight oils or greases made for fishing reels. Apply oil to all bearings, the crankshaft and the worm gear. Apply grease to the bushings, pinion gears, drive gears, and crank gears.

After usage, your reel should be inspected for dirt or sand and cleaned if excessive build-up is present. If your reel has come in contact with saltwater it is important to flush all parts with water, dry and re-lubricate your reel. Through diligent cleaning and maintenance your Lew’s® reel will provide you with years of reliability and sound performance.

For professional cleaning and maintenance send your reel postage prepaid to:

Lew’s 3031 N. Martin Ave.
