Performance – Right out of the Box!
Your Laser® Pro Speed Spool® SLP is designed for performance and functionality. From the way it conforms to your hand, to the way it reacts crisply and effortlessly to your command, you’ll know the minute you grab onto the Speed Spool® that you’ve got a quality reel.

Your Laser® Pro Speed Spool® SLP reel exploits several new developments which will allow you to set yourself apart from the competition.

Lightweight Graphite Frame and Sideplates
Your Speed Spool® reel utilizes a lightweight graphite frame and sideplates. Lightweight plus strong, so you’ll never have to worry about frame or gears twisting or torquing.

Lightweight Machined Aluminum U-spool
The spool on your Speed Spool® reel has been engineered to maximize casting distance. Anodized to withstand oxidation and abrasion, machined and built for deep capacity.

Zero-Reverse Bearing
The handle on your Speed Spool® reel will only rotate forward for rock solid hook setting power. When you release the handle it will hold its position because of anti-reverse bearings, never losing an inch on your catch; an invaluable property to have when you’re pullin’ it in.

Multi-Setting Brake System (MSB)
In order to combat backlash your Laser® Pro Speed Spool® reel features both an externally-adjustable, full-release magnetic braking system as well as an internally adjustable centrifugal brake system. The magnetic brakes give consistent braking throughout the entire cast and are adjusted by the palming side dial. The centrifugal brakes provide initial braking at the beginning of the cast to reduce backlash and can be turned off to reduce braking by removing the palming sideplate and pushing the white pin(s) towards the center of the spool until they click. To turn them back on push the white pin(s) away from the center of the spool until they click.

Cast Control System
A second feature exits to prevent backlash, the Cast Control System. An adjustment knob is found next to the star drag. The function saddles the spool shaft with steady pressure in order to stabilize spool speed.

To calibrate the system reel your lure in until it rests on the tip of the rod, then tighten the knob until taut. Depress the thumb bar, and holding the rod horizontally loosen the knob slowly until the lure begins to descend. The spool should continue to spin after the lure contacts the ground, but should not complete more than one full rotation. If the spool does not continue to spin, the knob is too tight. If the spool completes more than one rotation, the knob is too loose. Repeat until you have achieved the desired results.

Bowed 95MM Aluminum Handle
Our 95mm bowed aluminum handle will give you all the cranking power you need. The Lew’s® custom paddle handle knobs are an added bonus and will provide comfortable fit and ease for all day fishing.

---

**FEATURES:**

- One-piece lightweight SLP Super Low Profile graphite frame
- Machined and double anodized aluminum spool
- Premium 10-bearing system with 9-stainless steel double shielded ball bearings and Zero-Reverse one-way clutch bearing
- Multi-Setting Brake (MSB) system utilizes both magnetic and centrifugal braking to reduce backlash

**ATENTION BRAIDED LINE USERS!**

If your Lew’s Baitcast reel has pre-drilled holes in the spool, you may tie your braid directly to the spool, by passing the braid thru the provided holes and tying a uni-knot.

If your Lew’s baitcast reel does not have pre-drilled holes in the spool, you will need to first tie on and spool at least 20 revolutions of monofilament line, and then tie your braided line to the monofilament line, with either a back-to-back uni-knot or an Albright knot.

Continue to spool your reel as normal, keeping strong tension on the line to ensure the line is firmly wound onto the spool to keep from “digging in” to underlying line layers when pressure is put on the line from fighting fish.

**FAILURE TO PROPERLY SPOOLED BRAIDED LINE INTO YOUR REELS SPOOL WILL RESULT IN LINE SLIPPAGE, AND THE IMPRESSION YOUR DRAG IS NOT WORKING PROPERLY.**

Lew’s® warrants its products to withstand normal use for the purpose designed and intended when manufactured for a period of one (1) year from the original retail sale date to the original retail consumer. Lew’s® will at its option repair or replace Lew’s® products when required for the warranty period and return the product to the owner at no additional cost to the owner.

Numerous products have been manufactured under variations of the Lew’s® name and under the Lew’s® logo by multiple businesses over the past 50 years. This warranty is specifically for products manufactured on behalf of Lew’s® of Springfield, Missouri USA since January 1, 2010. Lew’s® products manufactured by or on behalf of other entities prior to January 1, 2010 are not covered by this warranty. In all circumstances, this Warranty is Limited in Value to the original retail value of the product and is limited to actual damage to the Lew’s® product and only the Lew’s® product. 2. Loss of a product, and disposal, damage to or loss of a product or part due to the attempted repair or servicing of a Lew’s® product by anyone other than Lew’s® or Lew’s® Authorized Warranty Service Agent, and damage caused by or resulting from abuse, misuse, lack of recommended maintenance, accident, acts of God, and shipping damages occurring in transit to Lew’s® or Lew’s® Authorized Agent are outside the scope of Lew’s® Limited Warranty and will be repaired through Lew’s® after warranty services at the expense of the consumer. Any product replaced by Lew’s® will be new or remanufactured by a Lew’s® Authorized Agent with the same or next model upgrade product.

Lew’s® will return warranted products to the consumer by reasonable means as determined by Lew’s®.

Express or expedited services are the responsibility of the consumer as is sending the product to Lew’s® or Lew’s® Authorized Agent, for Warranty Service. Lew’s® and Lew’s® Service Agents as authorized by Lew’s® are the sole agents authorized to repair or replace Lew’s® products under the terms of this warranty. Only written changes by an officer of Lew’s® can alter the terms or conditions of this warranty.

This warranty gives you specific legal rights including additional rights extended by some states which do not allow certain exclusions and limitations. Any action brought against Lew’s® for the purpose of settling a warranty dispute shall be brought and litigated in the State of Missouri, County of Greene.
