TLG1H, TLG1SH

Speed Spool Bait Cast reels are designed to be Lighter, Faster and Stronger

Driven by innovation – Fueled with Passion
Feel the Difference!

Team Lew's® Gold Speed Spool

Maintenance and Care

While applying lubricant to your Team Lew's® Gold reel, avoid using multi-purpose oil. Use lightweight silicone based oils or greases made for fishing reels. Apply oil to all bearings, the crank shaft, and the worm gear. Apply grease to the bushings, pinion gears, drive gears, and crank gears. fig 1

After usage your reel should be inspected for dirt or sand and cleaned if excessive buildup is present. If your reel has come in contact with saltwater it is important to flush all parts with water, dry and re-lubricate your reel. Through diligent cleaning and maintenance your Team Lew's® Gold reel will provide you with years of reliability and sound performance.

For professional cleaning and maintenance send your reel postage prepaid to:

One Year Limited Warranty

Law's Warrants its products1 to withstand normal2 use for the purpose designed and intended when manufactured for a period of one (1) year from the original retail sale date to the original retail consumer. Law's will at its option repair or replace Law's products when required for the warranty period and return the product to the owner at no additional3 cost to the owner.

1Numerous products have been manufactured under variations of the Law's name and under the Law's Logo by multiple businesses over the past 50 years. This warranty is specifically for products manufactured on behalf of Law's of Springfield, Missouri USA since January 1, 2010. Law's products manufactured by or on behalf of other entities prior to January 1, 2010 are not covered by this warranty. In all circumstances, this Warranty is Limited in Value to the original retail value of the product and is limited to actual damage to the Law's product and only the Law's product. 2Loss of a product, and loss/damage of a product or parts due to the attempted repair or servicing of a Law's product by any person or business other than Law's or Law's Authorized Warranty Service Agent, and damage caused by or resulting from abuse, misuse, lack of recommended maintenance, accident, acts of God, and shipping damages occurring in transit to Law's or Law's Authorized Agent are outside the scope of Law's Limited Warranty and will be repaired through Law's after warranty services at the expense of the consumer. 3Any products replaced by Law's will be new or remanufactured by a Law's Authorized Agent with the same or next model upgrade product. Law's will return warranted products to the consumer by reasonable means as determined by Law's. 4Express or expedited services are the responsibility of the consumer as is sending the product to Law's or Law's Authorized Agent, for Warranty Service. Law's and Law's Service Agents as authorized by Law's are the sole agents authorized to repair or replace Law's products under the terms of this warranty. Only written changes by an officer of Law's can alter the terms or conditions of this warranty.

This warranty gives you specific legal rights including additional rights extended by some states which do not allow certain exclusions and limitations. Any action brought against Law's for the purpose of setting a warranty dispute shall be brought and litigated in the State of Missouri, County of Greene.

11 Bearings System

- One-piece diecast aluminum frame and side plates
- Titanium Deposition finish on sideplates
- Aircraft-grade Duralumin 12-hole drilled U-shape spool, drive gear, crank shaft
- Premium, double shielded, stainless steel, 11-bearing system with Zero Reverse
- Multi-Setting Brake (MSB) utilizing both an external click dial to adjust the Magnetic Brake System, and an internal 4-pin positive on/off Centrifugal Brake System
- Rugged carbon composite drag system, provides up to 14 lbs. of drag power, audible click metal star drag
- Premium bowered light weight 85mm carbon fiber handle
## Maintenance and Care

To remove the palmig side plate, loosen screw, pull plunger back then rotate palmig side plate up.

When applying lubricant to your Speed Spool reel, avoid using multi-purpose oil. Use lightweight oils or greases made for fishing reels. Apply oil to all bearings, the crank shaft, and the worm gear. Apply grease to the bushings, pinion gears, drive gears, and crank gears.

After usage your reel should be inspected for dirt or sand and cleaned if excessive buildup is present. If your reel has come in contact with saltwater it is important to flush all parts with water, dry and re-lubricate your reel. Through diligent cleaning and maintenance your Lew’s reel will provide you with years of reliability and sound performance.
